Government has the right to retain in its own hands. The present practice is opposed to the provisions in the Rules which must either be modified or enforced. I would have the powers relating to the Suspension of the Rule of Law. The spirit of a humble & contrite nature has been the cause of the greatest confusion & the suspension of Rule will do well to consider whether the order for a remission of the forfeiture sanctioned these indulgences even before a trial & finally when liberal, they were sanctioned by the rules of it was not intended to benefit the classes of men who are rejected because found in the Lunatic Asylums. Of the condemnation on the part of planters may not be a correct test of their work as in all such cases there is as much to play given to the feeling of caste & the variety of social position between Europeans of every grade of society. Much is perhaps also due to the mistaken sentiments of generosity which is admirably extended to a native official in adversity or vexation.

Memo -

Proposals of Inspr Genl of Police in re revision of Grades of Special Insps & Chief Constables — Letter No 2060/242 of 19 Dec 1896.

With refce to Comml discussion on the Subject on the 8th instant, I have since then perused very carefully & studied the whole Subject.

Our present Staff of Inspectors Consists of.

6	in the 1st class on Rs 80+15	ordinary grades for Taluk Charge.
8	in the 2d class on Rs 70+15	
14	in the 3d class on Rs 50+12	
36	in the 4th class on Rs 40+12	

and 22 in Special Grades from time to time Sanctioned for the Special requirements of Various places on Salaries which vary from Rs 60+15, to Rs 200+20 -

The Inspector Generals representation to abolish the Various Conditions which attach to the Various appointments in the above mentioned Special grades and to have 18 appointments called "Special Insps" on better pay than the ordinary Inspectors, the Race & work which attach to the Various appointments in the above mentioned Special grades and to have 18 appointments called "Special Insps" on better pay than the ordinary Inspectors, the Vacancies of 4 of the present Special grade Insps being taken up by 2 Insps of the 2d Class Ordinary & 2 H.d Constables -

The Insp.-Genl. gives in my opinion very good reasons for the constitution of the class of "Special Insprs". The W. & pay of this class as proposed by him are by no means extravagant.

In Madras they have four classes of Inspectors, on pay of Rs 200, 150, 100 & 70

Financial considerations forbid ~~doing~~ our putting ~~the Insp~~ the whole of our Insprs on any thing like similar rates of pay — and this is not proposed. The proposal is to put a few of our Insprs on rates of pay somewhat similar to those which obtain in Madras, allowing the rest to remain on the present rates. The present & proposed rates compare as follows:—

	Present	Proposed
Inspectors Special	3 on 200	2 on 200
	5 on 150	3 on 150
	1 on 130	5 on 125
	8 on 100	8 on 100
	1 on 75	
	2 on 70	18
	1 on 60	
	1 on 50	
	22	
Insprs. Ordinary	6 on 80	6 on 80
	8 on 70	10 on 70 *
	14 on 50	14 on 50
	36 on 40	36 on 40

* the 2 increase proposed here to take the place of 2 of the present 4th Insprs. of Spl. grade

The Scale of pay proposed for Special Insps is in itself very reasonable having regard to the Cost of living in this ~~Presy~~ Province. ~~and~~ The Cost is greater in Some places (Such as the Malnad, ~~&~~ the Gold fields & Cities of Bangalore & Mysore) than is the Case elsewhere in this Province or in the Madras Presy generally; and yet the Salaries proposed for Special Insps are not more than what the Ordinary Insps get Everywhere in Madras — ~~Considered~~ We have had recently to abolish the last grade of Assistants on Rs. 100 and no Assistant now gets less than Rs 150 - At the Same time we also raised the Dep Assistants pay from Rs 70 to Rs 100 - Under such circs, General considerations alone quite justify our having ~~the~~ three ~~two~~ Police Insps on Rs 200 & five on Rs 150, and it is unnecessary for us to Seek any Special justification for a Scale ~~inter~~ in itself So moderate by attaching to it the Condition that the Nominees Shd be Europeans — Moreover under the term "Europeans", as used in the Order of the 28th Sept last is taken to ~~&~~ include Eurasians", the Scale cannot be Considered in capable of being brought into force,

for, No European Gentleman is likely to Come forward to take up an Inspectorship except as a Stepping Stone to the Grade of Supt. After giving the Subject my best Consideration, I am of opinion that weighty reasons exist for withdrawing the Racial Condition in the Order of 28th Sept. and that the Scale then Sanctd, if thrown into the previously Existg Scale, and a Combined Scale now be adopted, as proposed, our action would be perfectly reasonable in Every way —

The Same remarks apply more or less to the Grade of Chief Constables.

I see that the Insp. Genl proposes to Employ the Special Insps and Chief Constables now proposed on much the Same duties as at present — What he asks is the power to interchange Members of the Classes with one another — I have in order to satisfy myself gone into the question of present & proposed distribution pretty closely and the result is given in the appended table —

Note

I have already recorded my opinion in my note of 4th March last to the effect that the order of 28th Sept 1896 was proposed after mature consideration and to meet the special requirements of the Coffee tracts and the Kolar Gold Fields and that the Indian Govt ought to give effect to the scheme by selecting good European Inspectors. The order, while enforcing a decline on the part of Govt that the Indian Govt should keep in view the object of

Govt. to make the Inspectorships
on the Coffee tracts
and Gold Fields sufficient
allowance to qualified
Europeans, left the
Insp. Genl at liberty
to add the grade of
Rs 150 rising to Rs 200
in abeyance till some
one qualified there for
is found, by appointing
a 3rd Grade Asst temporary
on Rs 100 rising to Rs 150.

2 If the Genl finds
a difficulty in procuring
immediately a qualified
Europeian for the post
he may appoint
a Native of Ceylon
on less pay as above
noted as a temporary
measure and endeavour
to meet the wishes of Govt

by Lord Kimberley for a competent European - Instead of doing so the Indian Govt asks the Govt to recall their order with regard to the appointt of Europ Insprs. - Has given this application my best consideration and I see no sufft reasons to modify the order of 28 September.

3. The Coffee tracts the Gold fields and the jungly parts of Mysore where there has been too many deaths of late, really want Govt European or Eurasian Inspts - We even want some Govt

European and Asiatic
or Asiatic for these
places, for reasons
which I have recorded
in two of my Confidential
Dos to the Secretary
the present dangerous
and the peculiar
circumstances connected
with these Coasts
which are set forth
in Mr Markham's Report
own
Memo, on which the
Order of 28 Sept last
was passed, ~~peaceably~~ induce me all the more to urge
for the appointment of
all
necessary ~~measures~~
for
all
the Naval European
Ports. If Europeans
are not immediately
available I would
appoint good Europeans
whom there are
in Service.

In the 1st case we must have a mixture of all classes; and a spirit of European both in the higher and subordinate ranks would ensure a healthy influence —

If we select part Europeans or Eurasians as suppose they would, in course of time, qualify themselves for promotion to the higher grades. This is an additional inducement for European settlers at the part of India.

For the above reasons I would not recommend the adoption of 28° Latitude but would, if

The whole basis of the considera
which has heretofore been believed
upon this subject has now change
The subject matter dealt with in
the Order of Sept. was, as far as I can remember (the Mss Bill is
-ment of the prospects of the
three European superiors who had
been sanctioned who in charge
of the coffee Talugs and the Quarter
-ship was then availed of to inform
the prospects of the Police in the
Gold Fields also. Some increase
was then given to the Bangalore
& Mysore City Police - There was
no combined recommendation
sent up and the idea of grading
then Officers services was not
then considered.

To the order of Sept. passed
in Sept. the Supt. Genl. replied
in Dec. 1896 and the matter was
placed upon the Council in
March 1897. The gist of the Supt.
General's objection to the order of
the Govt. is, as far as I understand,
that he cannot get qualified
Europeans. But it was then

the Policy of Govt for some time w.r.t. Europeans - which term also comprises Eurasians - Inspectors in their Talks the Insp.r Genl addressed the necessity of employing Europeans. The Govt in continuing the old policy complied the Inspector Generals wishes - He also provided that all competent Europeans were found to merit the increased pay & the Inspectors or less pay might be employed - The Insp.r Genl has not revealed Govt action he took to carry out this order - Under the exist.g Rules the Power to nominate Asst Officers seems to rest with Distt Magts. see Rules 11 & 12. Did the Govt communi - cate the orders of Govt to Dist Magts to nominate qualified men? What action did they take? By the way I may mention that the system of sending up nominal Rolls of such officers by Distt Magts has been allowed to fall into desuetude of late. Although I tried, myself I was not able to procure a form from the Imperial Distt. This matter requires enquiry - but with regd to the points before us I see nothing before me to show that Govt & Govt Indian were made to secure competent [illegible] under this order, &

in the absence of such action I fail to see the propriety or the expediency of the Govt of India asked to increase its order of Sept. 20 now in a trial being given with. with regard to the general revision now applied for I think it will be highly inconvenient to deal with such matters piecemeal I gather from the Dewan's note that there are now 64 ordinary members & which an addition of two is now proposed making a total of 66. There are 63 taluqs exclusive of those of Mysore which have been specially provided for - French Govt. Sub. Div. has been given one and two members remain in excess. Moreover I see from the Chief Secretary are provided for the city of Mysore while for Bangalore there are only three. I do not think that Mysore requires more. I do not know that for Mysore European Chief Constables are very much necessary & members. There are also some probationary members required - A combined proposal for the revision required - If a combined proposal is not obtained. abolishing the whole force is sent up we may consider the present & the prospective expenditure and finally sanction a scheme local boys & progressive increase to work provided for special

Jurisdiction &c. Above all the present Police has grown much above the Rules under which it came into existence. Under the Rules there are neither Police Courts, or Appellate Courts and the appeal of the Supt General is also a new creation. The rules have been altered & ~~amended~~ and made to conform to present practice. If the Supt Genl can also draft a new Police Regulation & send it up with a ~~draft~~ complete revised scheme the whole may come for all be considered.

16.4.97 William Smith.

I do not at all think that any modification of the Govt. Order alluded to is absolutely required.

The Inspector General of Police shd. be asked to make best endeavours to carry out the rules of Govt. in Consultation with the Dist. Magistrates who are also Heads of the Dist. Police.

It is rather surprising that the L. Gt. who advocated European Inspectors himself, should change his mind as soon as his proposal was sanctioned.

Spl. Inspectors on higher scale of pay were sanctioned for better qualified and capable men, Europeans or Eurasians, to be employed in special localities. The object of the special provision is entirely defeated if they are to be employed in ordinary places, and ordinary Inspectors put in places specially marked for the former. There is nothing however to prevent the L. Gt. from recommending any qualified native if he is, in the opinion of the Officer, well fitted for any particular appointment.

The present rule that Police Inspectors should be nominated by Dist. Magistrates & Heads of Dist Police is a sound and wholesome one, and should be strictly followed in the interest of the Police service itself. It is highly unexpedient to deprive the Heads of the Dist. Police of their [illegible] and responsible duty,

The Police Service in Mysore has already undergone several changes for the better as years passed and there is scarcely room for further increases, in my humble opinion. It is too much I submit to compare our salary with the far more exiles wife salary in Madras.

The necessity for instituting for the coffee and gold mining tracts certain special grades of Inspectors, to be manned as far as possible by Europeans—~~Inspectors~~ but to be also open to Indian Inspectors of ability and aptitude, having been brought to the notice of Government, the scales for these tracts (and for the Bangalore and Mysore cities) were revised in Government order no 4371-947 dated 28th September 1896. In doing so Government observed that their object in increasing the pay of the Coffee Inspectorships was to make these places sufficiently attractive to qualified Europeans,

Europeans, and the Inspector General was asked to keep this object in view and strictly adhere to it.

2. The Inspector General makes exception to the restriction of the Coffee Inspectorships to Europeans, whom experience has shown to be by no means a success in the Coffee tracts, and also to the progressive scale of pay attached to the Inspectorships sanctioned in the above order, a system which Mr. Madhava Row considers difficult to work in a force like the police.

3 It is urged that the time has come for systematizing all the special grades of Inspectors, Chief Constables &c sanctioned by Government from time to time, as the existing system has become quite unelastic and unworkable. and

11. The Dewan's views are recorded at length in his Memo. of the 10th April 1897. He was of opinion that weighty reasons existed for withdrawing the racial condition imposed in the Order of 20th Sept. 96 and that the proposed scale of special appts was a perfectly reasonable one in every way.

The 1st C.r was not for modifying the Order of 20th Sept. If the D. Gl. found any difficulty in procuring a qualified European, he might appoint a Native or Eurasian on less pay as a temporary measure, and look out for a competent European. Also the 4th C.r Inspectors and the Special Inspectors for Bangalore, Mysore and the Railway Police should be kept as they were. All the others might be graded and their salaries revised on a better footing.

The 2nd C.r thought that some trial should have been given to the Order of 20th Sept. before Govt. was asked to revise it; & that the general question of revision could be more conveniently dealt with if a combined proposal applying to the whole force was sent up along with the draft of a new Police Regln.

According to the 3rd C.r, no modification of the Order aforesaid was absolutely required, & the D. Gl. should endeavour to carry it out in consultation with the District Magistrate.

12. The Dewan has advised that the Question may again come before the Council on a brief historical memo. of the subject.

Yes. This was one of the questions discussed at the Conference.

There was a good deal of discussion in connection with regard to Europeans in Coffee Dts. It was unanimously felt that the demand made by the Coffee planters that the European Inspectors should be withdrawn from Coffee Dts. Now the Govt is not in favour of the measure for reasons stated in his Confidential Memo — leaving their disposal on selection of good Europeans. The Govt is also not prepared to make the appointments attractive to Europeans. There is however some force in what is stated in para 7 of the Memo and I am inclined to agree with the proposal — but I still think that as far as possible good European Inspectors should be appointed for the Coffee Districts & Gold fields and that the Govt might sanction the scheme on a trial by selecting good European Inspectors —

The classification of the Special Inspectors requires further consideration very much — may be discussed for the present — The proposed increase of Rs allowance to 3rd Class Inspectors 4/ is OK

SIR,

With reference to Government Proceedings No. 4371-2/J 471 dated 28th September 1896, I have the honor to state that I have not been able to carry out the instructions contained therein for reasons given below:-

2. In para 2 of the Proceedings, the Government are pleased to institute 3 office Inspectorships, one on 150 rising to 200 and 2 on 100 rising to 150 in the place of the three existing Inspectorships as shewn in the margin. The Government also say

× 1 on 150—200 + 20 for Anjanabad in the place of 1 on 100 + 15
2 on 100—150 + 20 for Koppa and Mudigere in the place of 2 on 75 + 15.

@ Serial No. 4 in A File 4 J 7 No. 18 96-97

that the pay is raised in order to make the Inspectorships sufficiently attractive to qualified Europeans and remark that they "desire that the Inspector Gene "ral should keep in view the object of "Government and strictly adhere to it"

3. It will be seen from my memorandum which I resubmit herewith, that, for reasons given therein, I proposed a ~ special gra[illegible] of Inspectors open both to Indians and Europeans but in ~ which, as far as possible, European Inspectors should be employed. But the orders in the Proceedings restrict me to Europeans.

4. It will be noticed, however, from the Confidential memorandum enclosed, that, far from Europeans being specially fitted for this work,

it has been found from experience that European Inspectors have not generally proved a success in the Coffee tracts.

5. I would therefore request that these grades as recommended in the memo may be called grades of "Special Inspectors". I have many Indian Inspectors well qualified by their status in life, their knowledge of English, and English ways and thorough experience in Police work, to give every satisfaction as Inspectors in the Malnaud. I would note here that in Madras there are no special grades of Inspectors confined to Europeans, for Coffee or other tracts.

6. In my memo I had not asked for progressive pay, except for the two Chief Constables at Bangalore, but Government have ordered it for the Coffee and Gold Fields Inspectors as well. I may

be allowed to point out that in a Force like the Police, appointments to particula localities with progressive pay, are difficult to work. It will not ordina rily be possible to keep a Policeman in the same appointment till he shal have earned his last increment; and, transfers of men on progressive or non-progressive salary ~~to posts~~ or from posts to which progressive pay is, or is not attached, will be incon -venient and attended with Confusion It will not be an easy matter to de cide how much of the pay belongs to the locality or post and could be forfeited on transfer.

7. The time has now arrived for systematising all the Special grades of

Inspectors

Inspectors and Chief Constables sanctioned by Government from time to time. The system, as it now exists, has become quite inelastic and unworkable. A glance at the list of Inspectors herewith submitted will show that nearly every officer in the Special grades is drawing the pay of one locality and grade and doing duty elsewhere. This is only to be expected from the creation of particular appointments for particular localities and Police charges. Whenever a right man could be found for such a post, and could stay there, the system works well. But often the man appointed may prove unsuited to the particular place or may be required elsewhere, and it will be hard to make him lose the favorable pay of the post he may be

be holding. These, and many other inconveniences which experience has made manifest, necessitates that all the Special grades should be so systematised as to make transfers, promotions and postings easy. The system that obtains in Madras and elsewhere avoids all the inconvenience above noted. There they have only four classes of Inspectors on Rs 200, 150, 100 and 70. respectively. An Inspector gets the pay of his class irrespective of the work he may have to perform, or the locality he may be in. Inspectors in charge of a Taluk, of the Reserve, or in the Railway, or those at Head Quarters in charge of the Office, the Stores, Audit, School,

or prosecuting work, simply get the pay of their class. Transfers and promotions are thus made exceedingly easy

8. It is not possible now to place the Mysore Police on such a simple and easily workable basis owing to the smallness of the pay of the ordinary Inspectors. It is practicable, however, to systematise all the special grades without entailing any appreciable additional cost to Government.

9. The enclosed statement marked 2d A. shows all such appointments as have been made by Government from time to time, with the maximum pay of each appointment. I add to the list the Jamadar in

Charge

charge of the District Reserve at Tum-kur whom I would include in the Special grades, of which he is now doing the work, and whom I proposed to make an Inspector in my letter No. 1583/133 dated 22nd November 1894.

S.No 6 in J 7 No 7 of 1894-5

10. It will be seen from the statement that these grades cost Government Rs 3200 per month plus horse allowance of Rs 528 per mensem. I would, in their place, propose the following number and classes of Special Inspectors and Chief Constables.

Special Inspectors.

2 on Rs 200 + 20 —— 1st class.
3 on Rs 150 + 20 —— 2nd class.
5 on Rs 125 + 20 —— 3rd class.
8 on Rs 100 + 20 —— 4th class.

18.

11. This would include the City de-

Inspectors, the Railway Inspector, the 3 Coffee Inspectors, the 2 Kolar Gold Fields Inspectors, and the Special Reserve Inspector, Bangalore, for whose pay, the pay of an Inspector of the Kolar Gold Fields has been utilised, as also the Head Quarter School Inspector whose pay was originally Rs 100+15, and was reduced to Rs 75+15 solely to provide for the local allowance of the Head Quarter Police Assistant Commissioner, and the 8 District Head Quarter Inspectors. I have provided for a uniform rate of horse allowance of Rs 20, as all these Inspectors have to live in expensive places. There will be a saving of Rs 20 in the horse allowance of the Inspector who would be

Vide Govt. Pro: Camp No. 1322-23 dated Mysore 2nd October 1888.

be appointed to the Railway, but I would provide a local allowance of Rs 15 each to the two Kolar Gold Fields Inspectors, making a net increase of Rs 10

12. The French Rocks Head Quarter Inspector on Rs 60+15, I would draft into the 2nd class of ordinary Inspectors on Rs 70+15.

13. Chief Constables.

I would propose

4 on Rs 75+20 —— 1st class.
5 on Rs 50+15 —— 2nd class.
7 on Rs 35+15 —— 3rd class.
16

14. This will provide for the Mysore and Shimoga Special Reserves, the two Chief Constables of the Bangalore City, the two of the Kolar Gold Fields, the additional Chief Constable asked for for Bangalore in my letter No. 1751/202 dated

Subd alongwith

dated 29th Nov. 96, the four Chief Constables, 1 on Rs 35 and 3 on Rs 25 of the Mysore city whose pay I have proposed to increase to Rs 50 and Rs 35 respectively in my letter No. 1160/140 ⊕ dated 23rd Septr. 96, the ⊗ Sub-ans 5/10/96. Sub-Inspector and the Special Jamadar at the Kolar Gold Fields, and the Jamadar in charge of the Tumkur Special Reserve, and will leave free 2 Chief Constables, whom I would appoint to the Hassan and Kadur Districts for duty in Coffee Taluks. It will be noted that in my Memo I had asked for 3 Sub Inspectors for the Coffee Taluks, and in my letter No. 2000/210 dated 13th Decr. 95, I had asked for a Special Jamadar for Hassan for preventing Coffee thefts. The two

Chief

Chief Constables now provided for will supply these needs. It will thus be seen that in the place of four officers three of whom would be Inspectors on comparatively high salaries, I ask only for two officers of the grade of Chief Constables. I would provide a local allowance of Rs 10 each for the four Chief Constables of the Kolar Gold Fields.

15. The pay of the Special Reserve Inspector, Bangalore, sanctioned in Government Proceedings No. $\frac{60\ 79\text{-}80}{668}$ put up dated 6th November 1889 viz, 70+20 will be utilised in providing a 2nd class Inspector on Rs 70+15. It will be seen from the list of Inspectors that the present Inspector is doing duty as Taluk Ins-

Inspector, an additional Taluk Inspector having been provided for so long ago as 1891 for the Closepett Sub Taluk when the pay of a Kolar Gold Fields Inspector was utilised for the Special Reserve Inspector, Bangalore.

16. The result of these proposals will be seen in the statement marked B appended. It will be noted that by the new arrangements there is an increase of only Rs 10 (Rs 321 as against Rs 3200) in substantive pay. The increase, Considering the thorough systematising of the Police which the proposals would effect is very small.

17. I may be permitted to note

note here that when cutting down the Police establishments to nearly half of what they were at the general Reduction of 1880, Government in Proceedings No. 489/15 dated 24th Septr. 1880, said that Head Quarter Inspectors would rank with Amildars. But though the pay of the last grade Amildar has been raised to Rs 150, the Head Quarter Inspectors are left where they were in 1880. I note the fact here to show the necessity for the "Special" grades being thrown open to all deserving Police Officers irrespective of their nationality.——

——The present proposals, which involve a net increase of Rs 10 per mensem

Subs along with this in connection with Dt Police Schools file.

mensem would give somewhat better pay to a few Head Quarter Inspectors, and err, if at all, only on the side of extreme moderation.

18. The increase in the horse and local allowance is Rs 172. (viz Rs 700 as against 528) but of this, Rs 70 is local allowance for the Kolar Gold Fields Inspectors and Chief Constables, which is absolutely necessary in view of the cost of living there. The remainder of the increase is due to making the horse allowance of all officers in the Special grades uniform. All of them have to live at Head Quarters, or in expensive Taluks and the price of gram and wages of labor having risen, the increase

increase is only reasonable.

19. Against this increase I would place the savings which would be effected to Government when they pass my proposals for increasing the strength of the Bangalore and Mysore Cities as Contained in my letters Nos. (a) 1757/202 & (b) 1160/140 dated 29th Novr. 1896 and 23rd Septr. 1896 have therein asked for a Chief Constable on Rs 75 to 100 + 20 for Bangalore, and for increasing the pay of the Mysore City Chief Constables from Rs 35 to 50 and from Rs 25 to 35. These proposals involve an additional expenditure of Rs 165 per mensem, and as these appointments have been provided

(a) Subd. almg with this Subd on 5/10/96 X

+165

provided for in the present scheme, this amount may be deducted from the increased cost shown in the above proposals. The net increase thus amounts to only Rs 17 per mensem.

20. I have provided comparatively good pay and horse allowance for the grades of Chief Constables, both owing to the costliness of living in the localities to which they would be appointed, and for manning the grades with better men than the ordinary run of lower Police officers. I could also appoint deserving Europeans to these grades, though I will not confine the service to them.

21. Another measure of equal

equal importance is to raise the horse allowance of the 3rd and 4th class Inspectors from Rs 12 to Rs 15 per mensem. Government have recently sanctioned horse allowance at Rs 15 per mensem to Supervisors of all grades in the Excise Department, the last grade of Supervisor carrying only a pay of Rs 40. The work and responsibility of an Inspector of Police are, if anything, greater than those of the officers of the Excise Department, and the increase asked for is, in view of the rise in the price of grain and wages, only reasonable.

I would note that prior to the Reduc-

Reduction of 1880 all Inspectors were getting horse allowance at Rs 15 per mensem. The Cost of living, Government are aware, has risen very Considerably since then.

22. There are at present 14. 3rd Class Inspectors and 36. 4th Class Inspectors. The increase in horse allowance will thus be Rs 150 per mensem. Government will notice that in the proposals for additional Inspectors for District Schools recently submitted, I have provided horse allowance at Rs 15 for the 3 third class and 4 fourth class Inspectors proposed; and Government have sanctioned in their Proceedings No.

No. 5937-9 dated 23rd Nov. 96, a horse allow-
ance of Rs 15 for the Anthropometric
Inspector, whom also I would draft
into the 3rd grade of ordinary
Inspectors.

23. A proposition statement
showing the details of the proposed
increase is enclosed.

24. I have only, in Conclusion,
to express the hope that Government
will see their way to sanctioning
my scheme at an early date, as
it will be seen that I have ther-
-in tried what I could to combi-
efficiency with economy.

I have the honor to be,
Sir,
your most obedient servant

Confidential Memorandum
being enclosure to letter No. 2060/242
dated 19th/21st 12/96 to the address of
the Revenue and General Secretary
to Government.

Planters themselves
would be glad to have an honest
and capable native Inspector in
the place of a European who has many
difficulties to contend with in the
Malnad and has generally failed
to give satisfaction. Not to mention
other failures in the past, I may
refer to the case of Inspector Norris
who was sent to the Malnad in
1891, but had to be called back
within a few months and put in
charge of the Special Reserve on the
Ran-

same pay. Col: Campbell in his letter
No. 268/3 dated 16th June 1891 says "I
learn from the Police Assistant Com-
missioner that Mr. Norris's chief de-
sire is to get back to Bangalore,
that he is discontented and does
not take zealous interest in his
duties. I would therefore strongly
recommend his being relieved
by a Competent Inspector. From
my knowledge of the opinions of
Coffee planters, I do not think that
an East Indian Inspector is at"
all desired by them unless he"
is a first class man. The Inspectors"
lately employed in the Malnad"
Taluks have not been such, and"

as

"as East Indians of the stamp
required are not easily procurable
I would suggest that a change"
"in this respect be made", (ie. in
favor of native Inspectors). Much
the same remarks would apply
to Europeans also.

2. I understand this was
the opinion of Mr. Meiklejohn
also and I know that Mr. Sparke
has repeatedly complained to me
of the unfitness of the European
and Eurasian Inspectors sent
out to the Coffee Taluks. There
have been exceptions as in every
thing else, but this is the rule.
In my own experience, I had to
accept

accept the resignation of two Coffee
Inspectors McKie and Gomes who
chose to resign on the eve of
degradation and dismissal.
I have still before me the recom-
mendations of Mr. Weir, lately made,
that Inspector Walton should be
taken away from Koppa as he
has mismanaged the Taluk throug
want of experience and ignorance
of Kanarese, nor is Mr. Weir satis-
fied with Inspector Everard a
passed Candidate whom I had
sent out to act for Inspector Walto
The Deputy Commissioner has, in
anticipation of sanction, sent a
native Inspector to have charge of
this important Taluk. It may no
doubt

doubt be possible with the in-
creased salaries proposed, to find
qualified men, but I have now
such now and it will be a long
time before the men now availabl
are fully qualified. As my hands
are tied by the qualifying words
"European Inspectors", the boon the
Government wish to confer on the
hard worked Police Service will b
practically of no immediate bene
-fit to it.

GOVERNMENT OF MYSORE

in the margin referred to in the above proposals have not been sanctioned. The Government have probably withheld sanction to the above pending their passing orders on my letter No 2060/242 dated 19th December 1896 in which proposals were submitted for revising all the special grades of Inspectors and Chief Constables.

2. I would, however, beg to state that it will not be possible to give effect to the proposals made for reorganizing the Bangalore City Police and Gold Fields Police till the higher officers shall also have been appointed. These proposals in substance amount to dividing the Bangalore City into three divisions and the Gold Fields into two blocks - (Vide my letters above quoted) and placing them

them under responsible Chief Constables and Inspectors respectively. I beg therefore to request that early orders may be passed on my letter No. 2060/242 dated 19th December 1896 above referred to.

3. I beg to enclose, copy of Memo. ——— dated 24th March 1897, from the Superintendent of Police, Kolar Gold Fields, since received together with the Deputy Commissioner's covering letter, bringing to notice the necessity for the proposals for Inspectors and Chief Constables being passed before he could start the scheme.

4. I shall soon submit plans and estimates for Police lines and stations urgently required on the Gold Fields and referred to

to in the Superintendent's letter abov
noted.

By Superintendent of Police,
Gold Fields,
Kolar.

Inspector General's No. 3069/261 of the 16th March communicating Government sanction to the extra Police for the Gold Fields.

With reference to the above, — Government has been pleased in sanctioning the working staff to lay over the proposals also submitted for the appointment of 2 Inspector and 4 Chief Constables.

2. In the scheme to which I beg reference it was proposed to divide the fields into 2 blocks. Each to be in charge of an Inspector who would have 2 Chief Constable and a corresponding number of Head Constables and men under him.

To give effect to all the pro-posals submitted in this scheme

it

it was submitted that it was of the utmost importance that the controlling body should consist of 2 Inspectors and 4 Chief Constables in order that the subordinate officers and men under them may be kept under proper control and organization and so successfully worked without any hitch — bearing in mind the importance of the work cut out for the Policemen amongst a class of men and Roughs who could have unlimited sway over a body <u>under-officered</u>.

In submitting the above for the early consideration of the Deputy Commissioner and the Inspector General, I am also obliged to refer to no less an important subject which also appears to have been laid over by Government viz, the lines and quarters

and stations in the fields for the men and the officers in controlling charge.

I had occasion to mention in the proposals above referred to that for want of accommodation a portion of the present Force had to seek for huttings in the villages around the Fields which are invariably about a mile or a mile and half from their sta-tions.

Accordingly to meet calls and exigencies, to keep the men <u>together</u>, and away from evil and baneful influences, I had pro-posed for lines near to the stations the men will be located and with this in view and with the sanction of the Deputy Com-missioner, I addressed the Exe-cutive Engineer some time ago for plans and estimates for 2 first

'lass Police stations, 1 Inspector's quar-
'ers at Coregaum, 2 Chief Constable's
narters at Marrikuppam and Coregaum,
nd lines for the men at stations wher
hese are not available with accom
no'dation for Head Constables of
he latest type.

Without lines and quarters the
liffiently of housing men and officers
in the Gold Fields will be very
liffieult.

I accordingly beg that the
'overnment will be specially
noved to sanction these early and
for orders for the construction of
the lines and quarters by the D. P. W.

to notice by the Deputy Commissioner is due to the Government not having as yet sanctioned my scheme for special grades of Inspectors submitted with my letter No. 2060/242 dated 19th December 1896.

The Inspector General
of Police in Mysore.

Sir,

I have the honor to request your early attention to the pressing question of bettering the condition of the European Police Inspectors of the Malnad Talukes of Koppa and Mudgere.

2. In Malnad the natural difficulties in the way of obtaining even the bare necessaries of life are very great. But what renders the situation of the Police European Inspectors peculiarly distressing is the expensiveness of living imposed upon them not only by the conditions of climate - but also by the nature of the duties expected of them

t[illegible] [illegible] present pay is hardly sufficient to raise them [illegible].

3. The pay of Mr. Everard, Inspector of Koppa, is Rs 50/- and that of Mr. Walton, who is shortly to take charge of the Mudgere Taluk - is Rs 70/-. Considering that these officers are for the most part of the month required to be on the move and have consequently to provide themselves with conveniences of travelling in Malnad, their emoluments cannot at all be said to be adequate.

4. It is understood that the proposals submitted by the Inspector General sometime ago to raise the pay of the Malnad Inspectors having met with a qualified approval at the hands of Government, a further reference to the Government was rendered necessary.

5. As the matter has been under the consideration of Government for some length of time I trust that you will be so good as to move the Government

-ver an early decision on the subject

6. The Inspectors concerned are now sustained by hopes and encouraged by the prospects about to be opened for them. If the decision of Government should enable them to realise their expectations in this respect they will have obtained a much needed relief

7. In conclusion, I would express a hope that the allowances when sanctioned may have retrospective effect - so as to afford some compensation to these Inspectors for the insufficiency of their pay in the past.

and as I was in expectation of my modified proposals submitted with letter No. 2060/242 dated 19th December 1896 being early sanctioned. But as I have had no intimation of there being any likelihood of the a modified scheme which is already a year old, being passed within any reasonable time and as in the meanwhile it is not desirable to withhold the increase of pay a few of the Inspectors are entitled to, I have made the arrangements specified in the Memo as a temporary measure pending the sanction of Government to the revised Scheme.

Adverting to para 2 of your letter No. 5870/672 dated the 22nd November 1897, I beg to explain that what was proposed was to give Inspector Walton the starting pay of Rs 150 of the Manjirabad Inspectorship with a proviso that in consideration of this promotion being a sudden jump from his present Salary

The same as in Mandya 100 more than was offered and Mandya is the 7th in the 8 stations

salary he should not have the benefit of the increment for some years. If however Government wish to start him on Rs 100, I have no objection. It was not thought desirable to shift him to Manjirabad and transfer Inspector Ball who is doing good work there.

With regard to para 3, I should not have put in Inspector Nagarkar for Koppa if a qualified European was available. Nagarkar is a Jew by religion, wears a helmet and was in the Bombay Volunteers.

Regarding the query re Inspector Ball is a European, I find it difficult to give a reply to the question. The word

Still is now reported that a qualified European is not available. Nagarkar's appointment may be approved as a special case, but this may be informed that posting to this cadre in future may be made with the approval of the Government.
Col
This discussion from was summarized by W Hall is cleared

European is not easy of definition & for all practical purposes, Inspector Ball and other men situated like him have been classed as Europeans. Not to venture into the domain of Ethnology or Political expediency, it will suffice to point out that Government have themselves in the very Proceedings in which they rule that European Inspectors should be appointed to the Malvaad Talukas named, provided for a European Superintendent for the Gold-fields and they have been pleased to accept Mr Ballard for the place of the European Superintendent.

If I am not much mistaken, Inspector Ball belongs to the same race as Mr Ballard. I do not wish to enter into

further

further details as pedegree and parentage are matters on which people are very sensitive and discussions of these delicate questions are out of place in a public document.

I may be allowed before I close to invite the attention of Government to my letter No $\frac{970}{102}$ dated 7th September 1897 and repeat once again that the restriction of these special and better paid appointments to a particular class involves injustice to individuals and is calculated in the end to impair the efficiency of the service. Both the system of reserving certain Talukas and certain grades to a special community and the system of promotion by increments to be earned in particular localities lead to the officers becoming
